### **Mail Bomb Investigation Update**

SCOTTSDALE, AZ — The detonation of the mailbomb delivered to Scottsdale City employee Don Logan is being investigated by the U.S. Postal Inspection Service, Scottsdale Police, the Bureau of Alcohol, Tobacco and Firearms and the Federal Bureau of Investigation. The Arizona Department of Public Safety, Phoenix Police Department, Mesa Police Department and Glendale Police Department are also assisting in the investigation.

Bomb technicians from the investigating agencies processed the scene of the blast and removed debris that could contain even the smallest clue about how the bomb was made or from where it was mailed. The evidence has been taken to the Forensic Laboratory for the Postal Inspection Service in Dulles, VA. Analysts there will reconstruct the bomb and package.

The Postal Inspection Service is the federal law enforcement arm of the Postal Service. Its mission is to protect more than 700,000 Postal employees and the mail system. The Postal Inspection Service offers a reward of up to \$100,000 for information leading to the arrest and conviction of anyone mailing a mail bomb. Penalties for the mailing of a mail bomb are a maximum of twenty (20) years in prison and a fine of up to \$10,000. Anyone with information regarding this investigation may call (602)223-3660.
